Front-end Drupal Developer.

ABOUT ME

Name:Ion Obreja

Birthday:08.10.1983

Phone:+373 689 22220

E-mail:admin@josecret.com

I'm a Drupal Frontend Developer with 15+ years of experience turning ideas into clean, functional, and user-friendly interfaces. While I specialize in the frontend, I also enjoy exploring the full Drupal ecosystem — from content modeling and views to paragraphs, blocks, and custom theming.

My workflow is simple and efficient: modular CSS, PostCSS, Single Directory Components, and only the JavaScript that's truly needed. This keeps my projects fast, lightweight, and easy to maintain.

For me, Drupal isn't just a platform — it's where I feel at home, building scalable solutions that last and bringing value to projects of all sizes.
